

Do you receive Social Security Disability Benefits?

Your **Ticket to Work**
could give you
more income and
independence!

Did you know?

- You can go to work and still receive Social Security benefits
- You may do better by going off Social Security benefits and living on your earnings
- You may have work incentives available that will let you easily go back on your benefits, if needed
- Even if you go off your disability benefits, you may still be able to maintain your medical benefits

Do you want to?

- Increase your income
- Explore work options and incentives
- Keep Medicaid/Medicare while you work
- Build your independence and secure your future

Social Security's Ticket to Work program and other work incentives for adults age 18 to 64 with a disability can help you find and keep meaningful work.

Choose the **American Job Center** as your Ticket to Work provider!

- We are your "one-stop" career center and will be your partner for success
- One-to-one assistance for individual work plan development and long-term goal planning
- Adaptive equipment to help you with your career search
- Career exploration and readiness training
- Job development and making connections with employers
- Benefits counseling, retention assistance, access to education, government and community services, and more
