Program: WIOA Dislocated Worker	Section: 4-70	Page 1
Subject: Follow-Up Services & Data Collection	Effective Date: 10/01/22	

A. Background: Follow-up Services is one of the three types of WIOA-defined career services provided to WIOA-eligible adults and dislocated workers. WIOA 20 CFR Section 680.150(c) requires that Follow-up Services be made available to WIOA Adult and Dislocated Worker (DW) program participants who are placed in unsubsidized employment, for a minimum of twelve (12) months following the first day of employment. Additionally, TEGL 10-16 requires that “follow-up” performance data of all WIOA Adult and DW program participants who have exited the program (see section C.3 for exceptions) be obtained and reported for a minimum of twelve (12) months following exit.

B. Definitions

Exit: As defined by WIOA regulations section 677.150(c), the exit date is the last date of service with no plans to provide the participant with future services. The exit date is determined only after ninety (90) days have elapsed since the participant last received services. For purposes of determining the exit date, self-service, information-only activities, or Follow-up Services are not considered services that would delay the onset of the 90 days.

Follow-up Data Collection: As required by WIOA Section 116 and TEGL 10-16, “follow-up” data collection and reporting on employment, wages, education and/or training and credential attainment of all program participants who exited the Adult or DW programs is required quarterly for up to twelve (12) months post-exit.

Follow-up Service: As defined in WIOA regulations Section 678.430(c), Follow-up Services is the offering and/or providing of employment retention services such as counseling about the workplace to participants who are placed in unsubsidized employment to help them retain and/or advance in that employment. Follow-up Services are offered and/or provided for up to twelve (12) months after program “close-out” following the first day of employment.

 - f. Employers and education and training providers should only be contacted regarding a post-exit participant's status if the participant gave permission or if there is an established program relationship with the employer and education and training provider that allows for the sharing of information on the participant's employment or credential attainment status.
4. Impact of Re-enrollment on Follow-up Data Collection (TEGL 10-16)

If during the 12-month follow-up data collection period, the participant re-enrolls in the WIOA Adult or DW program, efforts to collect quarterly performance data for the initial program participation period continue until the initial 12-month follow-up period ends. Re-enrollment in WIOA Adult and DW program starts a new, separate participation period. When the participant exits the new program participation period, a new 12-month follow-up period of quarterly data collection starts.
